

Luxinnovation is the Luxembourg national innovation agency. It empowers companies to innovate today to be ready for tomorrow.

The agency encourages and supports individual companies, regardless of their size, stage of maturity and economic sector, along their path of innovation.

The agency provide them with access to knowledge, funding, infrastructure and networks.

Luxinnovation also gathers knowledge and fosters collaborative, innovative projects that benefit the Luxembourg economy as a whole in line with the Government's twin goals of stimulating a competitively sustainable and data-driven economy.

History

Founded in 1984, Luxinnovation is an Economic Interest Grouping (EIG). It is a public-private partnership that now combined the efforts of:

the Ministry of the Economy

the Ministry for Research and Higher Education

the Ministry of Foreign and European Affairs

the Luxembourg Chamber of Commerce

the Chamber of Skilled Crafts

Fedil

Services offers

Luxinnovation offers services for companies and research organisations.

The agency guides them through four main steps, supporting them to find inspiration on why and how to innovate, assess their development potential, connect with relevant partners and benefit from suitable funding opportunities.

Inspire - To inspire companies to enhance their innovation efforts, Luxinnovation offers

among other things, knowledge about Luxembourg's innovation ecosystems and global market trends through its Knowledge Hub. It also organises or co-organises big national or international events as the European Digital Healthtech Conference, Scynergy, Nexus2025 or the Luxembourg Venture Days.

Assess - To help companies assess their current situation and develop roadmaps for their next steps, the agency notably offer the "Fit 4 " programmes (Fit 4 Innovation, Fit 4 Digital, Fit 4 Sustainability, Fit 4 AI) that provide companies performance assessments and action plans in specific areas (digital and cyber, innovation, startups)

Connect - To connect companies, research centres and other organisations with national and European partners, Luxinnovation organises individual meetings where the Luxembourg innovation ecosystem is presented or matchmaking platforms where companies can find enables who can support their digital transformation or find national and/or European project partners.

Fund - The agency works also with a wide range of R&D and innovation funding initiatives and programmes, helping companies, research centres and other organisations find the most appropriate funding opportunities depending on their current needs and long-term strategies.

Startup Luxembourg

Initiated by the Ministry of the Economy and Luxinnovation, the Startup Luxembourg platform provides all of the information on the Luxembourg start-up ecosystem, launching a start-up in Luxembourg, and existing support measures.

The objective is also to create closer connections between all the actors within the ecosystem, to strengthen the start-up community, to increase the links between the different actors and to improve the effectiveness of the entrepreneurial environment as a whole.

The directory of the Luxembourg start-up ecosystem, powered by Dealroom, benefits both

businesses and potential investors since it provides real-time data on the start-ups' activities.

AI Factory

Launched in April 2025, the Luxembourg AI Factory is the one-stop shop for companies seeking to unlock or maximise the potential of artificial intelligence.

It primarily supports Luxembourg startups and SMEs that want to accelerate their transformation through AI, whatever their level of maturity. AI Factory's services are also open to large corporations and research institutions.

Luxinnovation is coordinating the activities of the Luxembourg AI Factory, built on a strong partnership of complementary organisations, bringing together expertise across AI, high-performance computing, innovation and data:

- LuxProvide
- University of Luxembourg
- Luxembourg National Data Service
- Luxembourg Institute of Science and Technology

Trade & Invest

Luxinnovation also provides specific support to organisations looking for partners, startups and international companies coming to Luxembourg.

The agency is committed to helping international companies interested in considering Luxembourg as their next European location.

Through Luxembourg Trade & Invest initiative, Luxinnovation can help them explore whether Luxembourg is the right place for them and help kick-start their business and innovation activities here.
