

The Shanghai Academy of Spaceflight Technology (SAST) is a research institute affiliated with the China Aerospace Science and Technology Corporation.

The institute was established in August 1961 as Shanghai Second Bureau of Electromechanical Industry, but was later renamed to Shanghai Academy of Spaceflight Technology in 1993.

Products

Space flight systems

SAST designs, develops, and manufactures launch vehicles as well as components. They designed and manufactured the Long March 2D, the entire Long March 4 series and FB-1 rockets. The FB-1 launched three military satellites, the details of which have not been published. SAST was held responsible for the FB-1 failures between 1973 and 1981.

As of 2024, SAST also designs, develops, and Manufactures launch Vehicles and Satellites. The Long March 2D, Long March 4B, Long March 4C, Long March 6, Long March 6A, Long March 6C and Long March 12 are launch Vehicles made by SAST.

Air defense systems

SAST produces several air defense missiles, including:

FN series (Chinese: 飞鹰) man-portable air-defense system (MANPADS)

FN-6

FN-16

FB series (Chinese: 飞豹) maneuver short-range air defense system (M-SHORAD)

FB-6

FB-10

LY series (Chinese: 猎鹰) medium-range air defense system

LY-60 (HQ-6)

LY-70

LY-80 (HQ-16)

Other missile systems

HQ-10
