

This is a timeline of space exploration which includes notable missions, achievements, first accomplishments and milestones in humanity's exploration of outer space.

This timeline generally does not distinguish achievements by a specific country or private company, as it considers humanity as a whole. See otherwise the timeline of private spaceflight or look for achievements by each space agency.

Pre-20th century

1900–1956

1957–1959

1960–1969

1970–1979

1980–1989

1990–1999

2000–2009

2010–2019

Since 2020
