

Child Online Protection (COP) is an initiative which is established by International Telecommunication Union in November 2008 within the framework of the Global Cybersecurity Agenda (GCA). The initiative was supported by the United Nations Secretary-General, states and several international organizations. COP is an international collaborative network to protect children worldwide against cyber threats by providing legal, technical and organizational measures.

Objectives

COP main objectives are as follows:

Identification of risks and vulnerabilities to children in cyberspace

Creation of awareness among policymakers, industry, parents and educators as well as the children

Development of practical tools to help minimize risk

Sharing knowledge and experience

ITU established a Work Group on COP and enhanced its mandate Based on RESOLUTION 179 of The Plenipotentiary Conference of the International Telecommunication Union in 2010.

Partners

ITU is working with the following organizations on COP:

UNICEF

UNODC

UNICRI

UNIDIR

European Commission

Interpol

ENISA (European Network and Information Security Agency)

Insafe

Commonwealth Telecommunications Organisation (CTO)

IMPACT

In addition, there several civil society and private sector organization who participate in the project.
